

**Welcome Back!**

**I'm so excited to kick off the year and can't wait to get to know each one of you. We will have lots of fun diving into new adventures, building strong friendships, and grower closer to God.**

**This month we will be getting to know our school, Jesus, friends, teachers and family's. We will be learning and exploring our classroom by playing with new and exciting things, getting to know our playground, and going over school rules. We will make lots of new friends and explore lots of fun in our classroom. Our class Shutter Fly and Instagram sight will be up and running soon. Please look out for my "invite" email to join. These sites will serve as a communication tool and will be very helpful for all class communication with daily events, videos, and pictures of your child's day.**

**Please let me know if I can help in any way in making the first month of transitions easier for your child. I'm here to pray for you and serve you.**

**Better Together,**
